Consultancy for GOH Products

Confirmation on product classification: Essential Fatty Acids

In accordance with the German Food laws and regulations, for the product:

Essential Fatty Acids

60 capsules with 85 grams, in enclosed labelling, being composed of flaxseed oil, borage seed oil and water, encapsulated in gelatine, with adjacent label,

a classification and unrestrained marketability as nutritional supplement is confirmed.

The product consists mainly of omega-3- and omega-6 fatty acids which are scientifically recognized essential nutrients and of integral importance in a healthy nutrition.

With this product, it is intended to supplement the normal diet with a concentrate of omega-3- and omega-6 fatty acids which may be deficient in certain population groups and under certain nutritional situations. Furthermore, the consumer is given a clear information on the label about the special properties of the ingredients and the reason why the product should be consumed as a supplement.

Therefore, the "Nahrungsergänzungsmittelleigenschaft" is asserted for this product.
